Elaboración:	Acero inoxidable/ Barrica
Alérgenos:	contiene sulfitos

Premios obtenidos

Grand Gold internationaler bioweinpreis 2015

Weinbeschreibung

VINEYARD The grapes come from organically grown vineyards, meaning that we didn't use any type of herbicide or artificially synthesized substance. Vineyards are chosen for their characteristics to represent whole Ribera del Duero, clay-limestone soils and very calcareous ones, but also sands and gravels combined with clay soils. The vineyards are located at between 750 and 1000 meters over the sea level. An album of memories is captured in this wine and takes you to its birth ...

Recomendado con el siguiente plato...

The recommended serving temperature is around 16°C so it can join the meal at any moment. A wine of personality, but joyful, that combines well with different variants of the lamb, as the traditional "lamb stew", but also with red meats or grilled fish
