Gold WINE AWARD INTERNATIONAL 2022

Weinbeschreibung

Fresh taste with hints of strawberries, raspberries, elderflowers, herbs and red grapefruit. The rondo grapes were planted in 2005-2006. Since then cooperatively cultivated and picked by hand and vinified by the owners of the vineyard. Our aim is to present palatable interesting wines from the cold Swedish climate.

Abbinamenti

Serve as an aperitif or with dishes of vegetables, light meat, poultry or seafood, not too spicy flavoured.

Vinificazione

After settling the juice, the sediment is removed and yeast added. Before bottling the wine is racked, cold stabilized and racked once more.
