Weinbeschreibung

For this wine a classic white vinification with indigenous yeasts at a controlled temperature is carried out. Then the malolactic fermentation begins in the wine. The second fermentation takes place in the bottle, at a temperature of 15°C, through the residual sugars of the first fermentation and lasts around 2 months.

We advise you to experiment with new and unusual food pairings with the flavors and aromas of this wine. We advise you to gently invert the bottle for a very innovative PIWI EXPERIENCE tasting.
