Beschreibung

ELABORATION PROCESS: Grapes selected and harvested by hand in vineyards located in Porreres (Mallorca - Balearic Islands). Traditional production methods, without the addition of yeasts or bacteria (according to conditions defined by DEMETER INTERNATIONAL). Spontaneous fermentation and vinification took place in stainless steel tanks.

SENSORY ANALYSIS:

Visual phase: Frank, bright, yellow with greenish tones. Tearing is appreciated in the glass.

Olfactory Phase: Very high intensity with balsamic aromas and bush, characteristic of the Sauvignon Blanc variety.

Gustatory phase: It is a fresh, velvety wine, with a lot of volume and balance.

Serving temperature: 8-10 ° approximately.

Food-Pairing
